Small Employer Health Insurance Task Force Mission Statement

The mission of the Small Employer Health Insurance Task Force is to work as a team to identify and evaluate the challenges that small employers, and insurers, face while attempting to deliver affordable health insurance to the small employer workforce. The task force will report on its findings and make recommendations to the Governor to help define the role that the State of Wisconsin can play in facilitating the delivery of health insurance to the employees of small businesses. To accomplish this mission the task force will solicit input from small employers, insurance industry representatives, health care providers, and policy makers.
